# *National Dance Academy Winter Weather Policy*

**National Dance Academy**

After much consideration we have decided that after 27 years of business, we have to change our winter weather policy. In the event of a snowstorm we cannot always count on the Iowa City School District to make the right decision for us. Twice last year school was cancelled due to snow/ice, but by 3pm roads were clear and driving conditions were safe. In addition, twice last year school was NOT cancelled when we felt driving conditions were unsafe.

With that said, we are changing our National Dance Academy winter weather policy to our own discretion. We will no longer be following the Iowa City School District's weather decision; we will make our own judgment call. We will always make a decision by 2pm that day- you may either call the office 351-7593 or 337-4976, or check our website <http://www.nationaldanceacademy.com/locations> for the latest information on winter weather cancellations.

Please drive safe and stay warm. As always, use your own discretion about driving in the weather, our dancers safety is the most important thing to us.

If you have any questions please let us know, we are happy to hear from our parents!

Thank you,  
National Dance Academy Offices
